**PROTEST AGAINST U.S. AMBASSADOR CALLED FOR**

Djakarta Correspondent's Dispatch in English to NCNA Peking 0541 GMT 13 July 1965--B  
(FOR OFFICIAL USE ONLY)

(Text) The Indonesian people were called on to be ready to launch a protest against the arrival of the newly appointed U.S. Ambassador to Indonesia, Marshall Green, according to HARIAN RAKJAT today.

The call was made in a joint statement of the representatives of the Indonesian Youth Front, workers' and women's organizations, the Indonesian Peace Committee, and the Central Action Committee to Boycott U.S. Films.

The joint statement demanded that the Indonesian Government sever its diplomatic relations with U.S. imperialism and confiscate immediately all U.S. capital in the country.

The joint statement said that the Indonesian people were well aware of the criminal role played by the embassy of U.S. imperialism in Djakarta. Under the leadership of President Sukarno they had unearthed practices of U.S. imperialist subversion, intervention, and aggression in the political, economic, and cultural fields, including the criminal activities of Bill Palmer, chief of the American Motion Picture Association and the U.S. Central Intelligence Agency in the country.

The joint statement denounced U.S. imperialism for its trampling underfoot the Geneva agreements on Vietnam and its bombing, strafing, and barbarous massacre of the Vietnamese people.

It said that the decision of the U.S. administration to replace Jones, the former U.S. ambassador to Indonesia, with Marshall Green was aimed at intensifying its vicious plan against the Indonesian Republic.

The heroic Vietnamese people have driven U.S. Ambassador General Taylor out of their country and the Indonesian people should also strengthen their national unity with Nasakom as its core to be ready at any time to launch revolutionary action against the arrival of Marshall Green, who is now on his way to Indonesia, the joint statement said.
